

Button Collage Necklace

Kit information from Cheryl Erickson

Yes I have button kits and I plan on bringing them. They are 25 button bags and range from \$3.00 and up. Some with only glass vintage buttons can get expensive. That is why we put them in 25 button bags. So people can choose their price range and mix and match. Most necklaces use 75 to 100 buttons.

Here is the information as we have them in the store:

Button kits are packaged in 25 button sets. For the plastic necklaces I usually use 100+ buttons. For a glass button necklace I use about 75 buttons. Much more and the necklace gets too heavy. So the idea is to mix and match kits. We try to make kits have at least two or more of the same button so you can get a symmetrical design.

Plastic med to small

white: \$3
black: \$3
bright: \$4
pastels: \$4
patriotic: \$4

Plastic with some larger and shaped.

flowers: \$5
printed: \$5
bright: \$5
pastels: \$5
